## Mark Calendars Now For July 12 Program

Mr. Thomas Wilder, an electronics representative of Remington Rand Corp. will be the program feature July 12.

He is an expert on the electronic brain and is in San Diego to confer with Convair officials on the operation of their multi-million dollar electronic brain. In a recent appearance before the San Diego Ad Club, he left the usually verbose ad men groping for words to describe their amazed reactions to his descriptions of what the "brain" can do.

A good speaker with a smooth, pleasant delivery, Mr. Wilder has a factual and fascinating story to tell. Don't miss this one!
