THE PROGRAM

DR. HAROLD M. AGNEW, President, General Atomic Co., has been in the forefront of nuclear energy development since the early 1940s. He joined General Atomic in 1979 after more than eight years as Director of the Los Alamos Scientific Laboratory.

Dr. Agnew was in the small group that worked with Enrico Fermi on the first nuclear fission chain reaction at the U. of Chicago, and was present there on Dec. 2, 1942, when man first initiated a self-sustaining nuclear chain reaction, and controlled it.

On April 1, 1943, he joined the Los Alamos laboratory and worked on the development of the atomic bomb. He flew with the 509th Bombardment Group as a member of the scientific team on the first nuclear weapon strike against Hiroshima.

In 1946, Dr. Agnew left Los Alamos to earn his doctorate with Enrico Fermi at the University of Chicago. He returned to Los Alamos in 1949, and left the laboratory on a leave of absence in 1961 to serve as Scientific Advisor to the Supreme Allied Commander in Europe at NATO headquarters in Paris. Upon his return to LASL in 1964 he was named head of the Weapons Physics Division. In this capacity he directed specific investigations related to development of nuclear components of weapons. The scope of this work extends from fundamental physical and chemical research to actual detail design and testing of weapons. On Sept. 1, 1970 he became Director of the Laboratory.

Dr. Agnew has also served two terms as a member of the New Mexico State Senate.

FUN Evening!

Our lovely ladies, the KIWANI-ANNES, have reserved 42 places at the FIESTA DINNER THEATER for June 5th. An opportunity for a delightful evening (they always provide a wonderful party). Please join us for a sumptuous dinner and that great play, "The Marriage-Go-Round". Check the details in another section of the TIDINGS, then mail your check right away. Don't miss this fun. Good food. Exciting entertainment. Very, very reasonable...

CHANGE YOUR MEMBER BADGE TO GOLD*

When you present the name of another good man for Club membership - and he joins us - your name line turns to gold and you are identified as a Club Builder. The Membership Committee, under the direction of Past Pres. BOB KLAIBER (SD Fed.Sav.) works hard to follow up all suggestions. JULE FINK (Smith Barney) then shifts into gear with his Education Committee to complete the indoctrination. Pick up a New Member Proposal from the office.

*(Would you believe orange?)

***** ONE speech usually ends up being three: the one you write, the one you actually give, and the one you wish you had given.
