

Public School Week

November 11-17

The week of November 12, will be officially known as "Public School Week" and will be celebrated throughout the country.

Public School week is an established custom and should be so for it celebrates the real foundation of our American system of advancement and education.

In looking over the history of our public schools, it is most interesting to note that commencing with the landing of the pilgrims, education in some form was undertaken but not developed into the public system for some years.

The New England States can rightfully boast of the beginning of public education in the United States for it was there that the first public schools were established.

The idea of such education did not travel as speedily as it might have for there seemed to be much prejudice against the teaching of everyone. It was thought proper only for the so-called "classes" and not the masses but finally and through the efforts of many of the early educators, the various states

undertook to establish the public system and hence its growth.

Congress seemed reluctant to tackle the situation and therefore took no definite action but rather referred the whole matter of education to the "various and several" states. Thus it is that the states now have the matter of Public Education under their wing and thus it is that many states stand further advanced through their desire of better education.

California stands in the forefront of public education and we can feel that this is largely due to the pioneers who really found that the only proper way to build a state was by proper education.

Attend your public school to see what it is doing for the youth of our state. Take an active interest in some of the various activities of school advancement and you will assist in bringing this country back to a steady channel through education.

Lend your support to our
free public American way
Education by visiting your
schools "often"

FRIDAY

El Centro, Barbara Worth Hotel, 12:15.

La Jolla, La Valencia Hotel, 12:10.

La Mesa, Ernie's Rancho,

Highway 80 East of Grossm't p.o. 12:10

Hockey Game a huge financial success

\$2,200.00 realized

The hockey game "has come and went" and it left behind it many pleasant memories and the knowledge that a hockey game can be most exciting.

The two teams taking part in this game were very anxious to make good and we are sure that their first appearance in San Diego this season is but the forerunner of future attendance at their games by many members and their wives.

Many of those attending this game saw a real professional hockey game the first time in their lives and expressed a desire to see more. They are now Hockey Fans and we sincerely hope that they will keep it up for the season and then next year when we have another such opportunity, (and we hope it will be an annual event) they can again make this the biggest game of the year.

We are grateful that the "house" was entirely sold out and when next we take our turn we are looking forward to a packed house and large gate receipts.

Our share of the proceeds which have been turned over to us is most gratifying in the amount of more than \$2200.00. This amount will be added to our Child Welfare fund and will assist greatly in helping to do more good for the needy children under our care and protection.

As stated last week, the thanks of the club goes to Clayton Phair

and his committee for their untiring efforts to make this a success.

Members do not realize that day after day was spent in bringing this game to fulfillment and someone just had to do the work. The committee did itself proud.

We wish also to thank the Glacier Gardens Association for making this game possible and we are looking forward to next year's game with pleasure.

Boy Scout Troop organized under our guidance

On Thursday evening November 15th, Bob Lindsay's Committee will assist in the establishment and induction of a new Boy Scout Troop No. 125.

This induction will take place at the Calvary Baptist Church at Crosby and Julian Street and members are urged to attend this meeting.

The Boy Scouts are needed in this particular section and we are sure that Bob Lindsay and his committee have done a wonderful piece of work in formulating this group.

The troop will be under the direct sponsorship of the Colored Baptist Church but we too will assume a responsibility in the organization and should see to it that we give it personal support as well as financial.

Harvey Atherton too has given

much time to this organization and in support of our Committee and as head of the Boy Scouts in this area. A large attendance would serve to support their work and activities.

Make it a point to attend this meeting, their first one and give them a lift on the way.

Our Silver Anniversary Party is taking on the final touches Harry Fraser and his Committee are bringing all of the details together for a grand finale.

Several distinguished Kiwanis visiting guests are expected and members should by all means reserve this date, December 7th. for the evening dinner and party.

THE OBJECTS OF KIWANIS

- To give primacy to the human and spiritual, rather than to the material values of life.
- To encourage the daily living of the Golden Rule in all human relationships.
- To promote the adoption and the application of higher social, business and professional standards.
- To develop by precept and example, a more intelligent, aggressive and serviceable citizenship.
- To provide, through Kiwanis clubs, a practical means to form enduring friendships, to render altruistic service and to build better communities.
- To co-operate in creating and maintaining that sound public opinion and high idealism which make possible the increase of righteousness, justice, patriotism and good will.

Jet propulsion explained

Our speaker last week, William Brotherton again brought us a very interesting talk.

"Jet Propulsion" is a rather intricate subject until one hears it properly explained as did Bill Brotherton and we wish to thank him for his careful explanation of just what "makes it tick."

The future of jet propulsion is in the making and that together with the various and sundry other discoveries such as Atomic forces leave one to wonder just what the future will be like in say even fifty years hence.

Thank you Bill Brotherton for your talk.

Dr. Corey, guest speaker

Our speaker for next week will be one who has appeared before us several times in the past and who always has a real message.

Dr. Arthur F. Corey, Executive Secretary California Teachers' Association, Southern Section will be the guest speaker. His subject will be "Mind vs Matter."

Maurice Ross will be program chairman.

It was with a deep sense of sorrow that we learned of the passing of Judge Benjamin F. Warmer, Superior Court Judge of San Bernardino County, brother of our own Dr. George Warmer.

Judge Warmer passed away suddenly and the services were held

PROGRAM

Tuesday, November 13, 1945
SAN DIEGO CLUB
12:10 Noon
